Informed Consent to Chiropractic / Massage Therapy / Rehabilitation Therapy & Treatment

- Doctors of Chiropractic who use manual therapy techniques are required to advise patients that there are some risks associated with such treatment. In particular, you should note: While extremely rare, some patients may experience short-term aggravation of symptoms, rib fractures, or muscle or ligament strains/sprains as a result of manual therapy techniques; and there are very few reported cases of stroke associated with common neck movements including adjustment of the upper cervical spine. Present medical and scientific evidence does not establish a definite cause and effect relationship between upper cervical spine adjustment and the occurrence of a stroke. Furthermore, the apparent association is noted very infrequently. However, you are being made aware of this possible association as a stroke sometimes causes serious neurological impairment, and by on rare occasion result in injuries including paralysis. The possibility of such injuries resulting from upper cervical spinal adjustment is extremely remote; and there are rare reported cases of disc injuries following cervical and lumbar spinal adjustments although no scientific study has ever demonstrated such injuries are caused, or may be caused, by spinal adjustments or chiropractic treatment.
- Chiropractic treatment, including spinal adjustments, consists of procedures that involve moving the joints and soft tissues, called manipulations or adjustments. I understand that there may be benefits from these treatments including lessened pain, reduced numbness, reduction of muscle spasms, and increased mobility. Chiropractic care can contribute to my overall well-being, but it is not certain that I will achieve these benefits through chiropractic care. I recognize that chiropractic care is not different from other health care in that Damron Chiropractic & Wellness LLC has not and cannot guarantee a cure or certain outcomes as a result of these procedures. I also acknowledge I will be treated by either Dr. Andrew Damron or Dr. Washam. I hereby give Dr. Damron or Dr. Washam permission to review my medical file and treat as they see fit.
- I am physically sound and have medical approval to proceed with a normal routine of exercise, and all exercise shall be undertaken by me at my sole risk. I am in good health and have no physical condition that would be aggravated by my involvement in cardiovascular exercise, weight lifting, weight training, and/or body building, nor do I have any physical limitations that would preclude said involvement.
- I agree that I am responsible for any damages caused by myself to Damron Chiropractic & Wellness and its facilities and equipment, and for any personal injury or property damage caused by member to any Damron Chiropractic & Wellness member, guest, or to the property of either and member agrees to indemnify and hold Damron Chiropractic & Wellness harmless of any loss caused by myself for which Damron Chiropractic & Wellness is accused or held liable including attorney's fee and court costs.
- I certify that I realize the risk of cardiovascular exercise, weight lifting, weight training , and/or body building and am fully aware of the possibility of mechanical and/or other negligence of cardiovascular equipment, weight machines, weight training, and/ or apparatus ("equipment"), whether or not due to the negligence of Damron Chiropractic & Wellness or otherwise, as well as the possibility of injury to me as a results of use of such equipment. I therefore fully understand the serious consequences which might result due to my involvement in cardiovascular exercise, weight lifting, weight training, and/or body building while at Damron Chiropractic & Wellness or their respective trustees, staff, officers, directors, members, managers, shareholders, and agents from my use of Damron Chiropractic & Wellness facilities and it's equipment.
- I am forewarned that Damron Chiropractic & Wellness will not in any event provide medical and/or hospitalization insurance for my benefit, and in the event of any injury to my person occurring either as a result of being on any portion of the premises of Damron Chiropractic & Wellness, I hold harmless and keep indemnified Damron Chiropractic & Wellness and their respective trustees, beneficiaries, staff, officers, directors, shareholders, and agents from and against any and all legal actions, claims, costs, expenses, or demands, in respect of such injury or injuries, howsoever caused arising out of or in connection with any use of the Damron Chiropractic & Wellness facilities or my being on any portion of said premises and notwithstanding that the same may have contributed to or may be caused by my negligence of Damron Chiropractic & Wellness, and its respective staff, representatives, agents, officers, directors, members, shareholders, trustees, or beneficiaries.
- If at any point during the session I feel uncomfortable or uneasy with the techniques being incorporated, and/or if I experience any pain, I understand it is my responsibility to IMMEDIATELY inform the personnel, so that the techniques can be adjusted to a level of comfort, or terminated if necessary.
- I understand that massage therapy is the treatment of disorders of the human body by the manipulation of soft tissue through the systematic external application of massage techniques including touch, stroking, friction, vibration, kneading, stretching, compression, and joint movements with the external application of water, heat, cold, topical preparations, and certain mechanical devices. If at any point during the massage I feel uncomfortable or uneasy with the procedures being administered, or if I feel pain, I understand that it is my responsibility to IMMEDIATELY inform the massage therapist, so the procedure can be adjusted or terminated if necessary.
- I understand that massage therapy is not a substitute for diagnosis, medical treatment, or medication. Any communication by the therapist to me is not a substitute for the advice of any licensed doctor. I understand the therapist does not diagnose illness or disease, prescribe medication, and that under the Massage Therapy Scope of Practice (OH Revised Code 4731.15 and Administrative Code 4731-1-05 (F) does not include: application of ultrasound, diathermy, electrical stimulation, colonic irrigation, the practice of chiropractic, force applied to a joint to break capsular adhesions, prescriptions of therapeutic exercise, treatment of infectious, contagious, or venereal diseases; prescription, dispensing, personally furnishing, or administration of drugs; and the performance of surgery or practice of medicine in any other form.
- I have informed the massage therapist of all my known physical conditions, medical conditions, and medications both past and present. I will notify the massage therapist about any changes in my health since my last visit. I agree to pay the agreed upon amount in this session and future sessions. I agree to pay the full value of the session price should I cancel within at least 24-hour's notice.

I have read, or have had read to me, this consent. I acknowledge I have discussed, or have had the opportunity to discuss, with Dr. Damron the nature and purpose of chiropractic treatment in general, and my treatment in particular (spinal adjustment), as well as the contents of this Consent. Any questions that I have had have been answered to my satisfaction. By signing below, I consent to the chiropractic treatments offered or recommended to me by Dr. Damron, including spinal adjustments. I intend this consent to apply to all my present and future chiropractic care at Damron Chiropractic & Wellness LLC.

Authorization to Treat / Authorization to Release Information

I hereby give my authorization/consent to treat me or my minor child as named herein on this form. Our office policy requires payment in full for all services and goods rendered at the time of your visit to the office, unless other arrangements have been made. I clearly understand and agree that all services and goods rendered to me are charged directly to me and that I am personally responsible for payment. I hereby authorize payment of any and all benefits, medical or otherwise, to the physician for benefits due me for the services and/or goods rendered. I further authorize the physician, facility, and/or supplier to release any information it deems necessary as required to process my claims or requested by any 3rd party that has a direct or indirect interest in the claim or treatment. **I understand the above information in its entirety and hereby guarantee that this form was completed accurately to the best of my knowledge. I also understand that it is my responsibility to inform this office, in a timely manner, of any and all changes to this information.**

X-Ray Pregnancy Release –*Women Only*

This is to certify that, to the best of my knowledge, I am not pregnant and this office has my permission to take any necessary x-rays. If I have had a hysterectomy or tubal ligation, or are presently in menopause or post-menopause, I will assume all responsibility for any effect on a fetus potentially present. I may be presently using birth control pills or an IUD as a method of birth control, or I am within 10 days of the onset of my menstrual cycle, and assume all responsibility with regards to a potential fetus. If I am not using birth control pills, or not within the first 10 days after the onset of my last menstrual cycle, I will assume all responsibility for any effect on a fetus potentially present. If this information changes at any point in the future I will notify the office.
